

KS1 have been colour detectives this week, and investigating what secondary colours they can create by mixing the primary colours together. They did this with both play dough and paint. It was lots of fun.

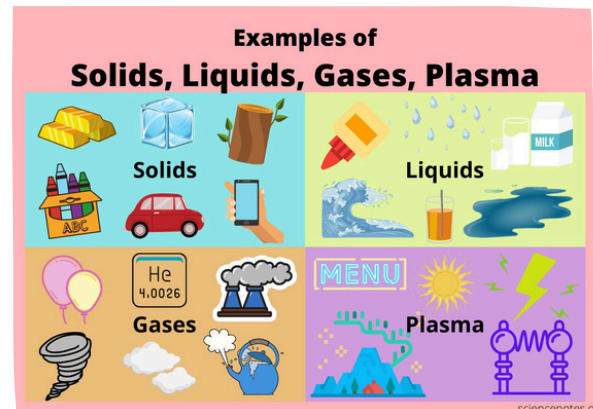

In science, we have been very excited, because our caterpillars have now become chrysalises and we are now waiting patiently for the butterflies to emerge! In maths, year 2 have been learning all about fractions, and are demonstrating a good understanding of what the numerator and denominator represent in a fraction.

In Science, LKS2 have been learning about states of matter. We have been setting up simple enquiries about solids, liquids and gases, and reversible and irreversible change. We made predictions and observed how butter can change from a solid to a liquid then back to a solid once cooled. We also observed how ice can melt to become liquid then be boiled to produce steam.

STATES OF MATTER

VE Day Celebration

This week, we have celebrated 80 years since Victory in Europe day.

As a whole school we had our packed lunches together , participated in a 2 minute silence and sang the National Anthem.

Here are some pictures of our special day
