KS1 WOW Day!!!

We were lucky to have a visit from Mr Tamkin, who as an engineer works on Mars Rovers and Luna Rovers. He spoke a little bit about his work before showing the children a rocket launching and talking us through it's flight. He explained about the rocket's two main components and that one will go back to the launch pad, whilst the other completes the flight before landing in the ocean somewhere for retrieval. He also explained that rockets do not fly vertically as some may think, but go across rather than up in order to travel further. The children were fascinated by this and it generated a lot of questions for Mr Tamkin to answer!

The rest of our day was spent watching the moon landing, tasting space food and creating our very own rockets out of junk modelling!

Thank you to all for the costume efforts, the children looked fantastic!
