# **Remote Education for Parents 2026**

## **Remote education for parents**

In the event of an emergency e.g. adverse weather conditions, the school may be required to partially or fully close. We want to ensure you and your child understand what to expect from remote education if your child needs to learn from home. Where your child is unable to attend school, they will be provided with remote education for the period they are off – information regarding this provision is also included in this document.

### *The remote curriculum*

If the school is required to restrict entry at short notice, we will provide workbooks for the first day or two whilst we make the necessary arrangements for remote learning.

Our school will aim to provide the same curriculum at home as we do on the school site.

Due to the nature of some lesson plans we have made amendments to certain activities, e.g. ceasing practical science lessons.

### *Remote teaching time*

Pupils will receive 3 hours of remote education a day on average, with less for younger children and an hour more for pupils in KS2.

### *Remote learning time*

Remote learning is delivered in a variety of different ways, including the following:

- Live online lessons
- Recorded lessons (video/audio recordings made by teachers)
- Printed paper packs produced by teachers (e.g. workbooks, worksheets)
- Textbooks and reading books pupils have at home
- Commercially available websites supporting the teaching of specific subjects or areas, including video clips or sequences
- Long-term project work and/or internet research activities

### *Feedback*

In order for us to provide high-quality remote learning, we will continue to provide constructive feedback to ensure pupils are meeting the correct standards in their

learning. We will use the following methods to ensure your child is learning efficiently and effectively:

- Whole-class feedback or quizzes marked automatically via digital platforms, amongst many others
- Asking pupils to submit work for marking at the end of the day and returning marked work via digital platforms

### *Accessing remote education*

We are providing remote education on the following platforms:

- [Google Classroom](#)
- [ClassDojo](#)

We understand that some pupils may not have suitable online access at home. The following approaches are implemented to support pupils to access remote education:

- **We Will issue or lend Chrome books to pupils, and where parents can find more information.**

If your child does not have access to the necessary technology for online learning, please contact the school office.

### *Pupils with additional needs*

Our school recognises that some pupils with additional needs, e.g. pupils with SEND, may not be able to access remote education without the support of an adult at home. In order to support these pupils, we will work with you to ensure they are able to access a high-quality education in the following ways:

- Our [SENCO](#) will get in touch with you if your child has SEND to discuss how to support your child's remote learning
- We will ensure pupils are provided with regular check-ins with their teachers via [telephone](#)

We encourage you to get in touch if you believe your child may struggle or is struggling with accessing remote education.

## *Contacting the school*

We will provide you with all the details you may need when contacting the school while your child is learning from home. When contacting the school, here are four important things both you and your child need to remember:

- When on a video call, sit in a suitable area, e.g. a living room with a neutral background.
- When on a video call, wear suitable clothing and ensure your conduct is respectful.
- Understand that staff may not always be able to help, but they will try their best.
- Remember to act in the same manner as if the school were open.

## *Additional information*

Additional information you need to be aware of includes the following:

- The school will provide you with all important contact information for key members of staff, including your child's teachers and the headteacher
- Any concerns regarding the safety of your child should be directed to the school's designated safeguarding lead
- Your child will not be penalised for their non-attendance during this time
- Teachers will monitor work completed to ensure your child is still completing set work

## *Supporting your child's learning*

Top tips for supporting your child while they learn from home:

- Keep to a routine as much as possible so your child knows what to expect
- Keep active – ensure your child is getting enough exercise and incorporate this into their daily routine
- Use different methods to assist learning, e.g. online programmes and documentaries
- Stay sociable – organise with other parents to arrange video calls with your child's friends so they can stay connected during social hours

For younger children, you can:

- Incorporate learning in make-believe play.

- Play educational games with numbers or letters and read together.
- Involve them in things you are doing, e.g. chores, and talk with them about it.

### *Additional resources*

The following resources can help you support your child while they are participating in the school's remote education programme:

- [Top tips to support parents with remote learning](#) – practical tips for parents to support remote learning
- [The Education Endowment Foundation](#) – an independent charity that has produced support resources for parents
- [Educational resources](#) – resources aimed at children with and without learning difficulties
- [SEND-specific resources for learning from home](#) – resources to aid the remote learning experience for children with SEND
- [Specialist content for pupils with SEND](#) – learning resources for children with SEND
- [SEND-specific BBC resources and activities](#) – BBC resources aimed at children with SEND
- [BBC Bitesize](#) – resources for children, teachers and parents
- [LendED platform](#) – resources for remote education
- [Isaac Physics](#) – remote education resources for physics, chemistry and maths lessons from GCSE to A-level
- [Find your local library](#) – an online tool to help children and parents find their closest library, which can provide access to hundreds of helpful resources
- [Support for parents and carers to keep children and young people safe from online harm](#) – advice and guidance to help parents and carers to keep children safe online during remote education
