| 15.12.21 | Christmas Dinner Day |
| 17.12.21 | Break Up |
| 05.01.22 | Children return |

Year 5 have been investigating the causes and effects of Earthquakes. They explored what happened when tectonic plates moved and the tremors shook our Greek temples!

With the funds raised from the sponsored fun run, we have created tranquil trolleys for all classrooms to aid children's well being. Thank you!

We have been learning about time in Jellyfish Class. We have been singing songs about days of the week and months of the year. For this activity we had to decide if we would do the activity in the day time or at night time.

Seahorse class have started shape in maths. We went on a shape hunt around the playground for 2D and 3D shapes. We found lots of cuboids and even managed to find a square based pyramid! We have been trying hard to spot shapes everywhere we go around the school.
