24.06.22	Dolphin Cake Stall
01.07.22	Otter Cake Stall
08.07.22	Orca Cake Stall
15.07.22	Seahorse Cake Stall

Penguin Class have been busy in Maths during the last two weeks. They have used positional and directional language to guide their partners around an obstacle course, and the year ones have been busy becoming experts at identifying one more and one less of numbers. Also a big well done to all of the year 2s in KS1, for completing their SATS.

Orca Class made mini dens for their wild animals using sticks this week. There were some great designs which included extra things, such as an area for food, sheltered areas and water holes. Orca class showed great team work skills again with their den building when they made a den large enough for six children to go in. This group then showed their values by letting other children play in the den they had built as they went to explore other things in Forest School.

Special Award for the Week

Ella-Mae B, Nye S, Harry B, Samuel G,
Francesca W, Isla G, Tom S, Milan C.

Class Attendance

Dolphin Class — 98%

Jellyfish Class have been learning about shape, pattern and symmetry. The children have used the shape tiles in their play to create pictures and symmetrical designs. We have looked at the symmetrical patterns on butterfly wings. We are excited about our street party celebration next week for the Queen's Platinum Jubilee and made bunting to decorate our classroom, using a repeating pattern.
