KS1 are learning about different artists this half term, in particular those that collage materials to create their art. This week, we began with Henri Matisse. The children thoroughly enjoyed either tearing or cutting coloured paper to create an animal of their choosing, and we all guessed what animal creations there were at the end.

Lower Key Stage 2

We have enjoyed welcoming the children back into school this week after their half-term break.

In English, we are coming to the end of our unit on true life texts, where the children have really enjoyed learning about the inspirational true life stories of Henry 'Box' Brown and Rosa Parks. In our next unit we will be looking at poetry, where the children will be learning poems by heart and performing them.

In maths, we have finished our unit on time and have begun learning about coordinates, and how to plot coordinates on a grid. Our Year 4s are also about to complete their multiplication check and have had their practise run this week in preparation for the actual check next Wednesday.

During our science lessons, we have come to the end of our unit on states of matter. In our new unit the children will investigate Living Things and how to identify and classify them.

Finally, it is lovely to see the sun shining, with the higher temperatures forecast for this weekend and into next week we would like to remind parents to please send children into school wearing sunscreen and with their water bottles and a suitable sun hat.

Year 6

The children have been enjoying their maths work this week by using matchsticks and pens to make hexagonal shapes to try and predict the amount of materials needed.

Their challenge was to write an algebraic expression for the number of sticks for hexagons.

Please can we remind you to be mindful and respectful of our neighbours when parking during school drop off and collection.
