The KS1 talent show evening was spectacular! We have some extremely talented children in our midst! We were treated to gymnastics, dancing, singing and animation. A big well done to Layla for entering and having a try in her roller skates! It is incredibly brave to stand and perform in front of an audience and we are extremely proud of them all. A special mention to Mrs Parker and the school council for putting this event on, and giving the children a wonderful opportunity to showcase their special talents.

First place was Freya for an impressive gymnastics routine.

In LKS2 we are excited to be starting a new unit learning all about torches in our Design and Technology lessons. This week our pupils have begun to investigate how to make a working switch, and over the coming weeks will evaluate the different uses and functions of torches and how these affect design principles. The children will then draft their own designs, before assembling and testing them. This half-term we are also starting a new unit in Science looking at Living Things and their Habitats. We will be investigating how animals and plants are particularly suited to their habitats, and how climate change and habitat loss can adversely impact those plants and animals, and how positive choices we make can help.

Finally, we are currently enjoying Michael Morpurgo's retelling of the traditional tale Pinocchio, and very much looking forward to this week's World Book Day.

Today has been World Book Day, the staff and children have all had fun dressing up and taking part in class activities. We will share a selection of the pictures on next weeks Newsletter.

Please can we remind you to be mindful and respectful of our neighbours when parking during school drop off and collection.
