Seahorse class really enjoyed the first lesson of this term's Design and Technology unit in which we are working towards designing and making a windmill.

We started by investigating stable structures. We found that a paper cup blew over very easily but were able to make it more stable by turning it upside down to create a wider base. We then experimented with adding weight to the base using blu-tack. The children really enjoyed testing and amending their structures and are looking forward to the next stage of the design.

Manta Ray have had lots of fun designing a soft toy and practicing their sewing skills. We are looking forward to seeing the amazing creations that they come up with! The photos also show their brilliant Matisse inspired artwork that was done earlier in the year. They are a very talented and creative class!

Please can we remind you to be mindful and respectful of our neighbours when parking during school drop off and collection.
